50X1-HUM

1. General.

The 3,550,000 DM (East) voted for capital investments in plants controlled by the Ministry of Machine Construction is about to be drastically curtailed. In this connection, the planned production of transformers at Transformatoren- und Montagewerk, Dresden, is to be transferred to Elektromotorenwerk, Heidenau, and the production of electromotors at the latter is in turn to be transferred to Elektromotorenwerk Bernitzsch.

2. Dampfhammerwerk und Geseckschmiede, Brand-Erbisdorf (VVB GUS).

- a. This is a priority (Schwerpunkt) concern which has been reorganized to include the following:

Freiberger Maschinenfabrik.

Dampfhammerwerk und Geseckschmiede, Brand-Erbisdorf.

Hammerwerk und Geseckschmiede, Langenau.

Press und Stanzwerk, Brand-Erbisdorf.

- b. The 1951 plan for this group provides for the output of 17,500 tons of drop forgings and plain (Freiform) forgings. On the basis of a capital investment program of 9850,000 M (East) in 1952, capacity will be raised to 22,300 tons of forgings per annum. In addition, a subdepartment will produce 5 million coach screws (Tiefenbo) in 1952. A total output of 50,000 tons of forged products is planned for 1955.

3. Blechbearbeitungswerke, Leipzig.

This firm is to produce 1000 bowser cisterns (sic) in 1951. The planned output in 1952 is 1000.
